
COMMUNITY DEVELOPMENT FUND

Since 1975, HUD's Community Development Block Grant (CDBG) Program has provided funds for the purpose of revitalizing deteriorated low and moderate-income neighborhoods in Durham. This has been accomplished through a concentrated approach that addresses a neighborhood's housing, public facilities, economic development, and land use needs. The City staff is overseeing a wide variety of projects such as construction of sidewalks in certain areas of the city; other street and infrastructure improvements; economic development activities, including commercial developments and facade improvements; housing code enforcement; and a program to install smoke detectors in target area residential housing units.
